An academic Internship is an extraordinary learning opportunity based on reflection, knowledge, direct observation, clear objectives and strict assessment. Guided by a STEM department as well as a professional on-site supervisor, students will observe the daily medical clinical activity at the Salvator Mundi International Hospital. Students will learn the art of clinical history taking, observe the performing of imaging tests (such as CT scan, MRI, ECG scans, x-rays, etc.), and complete tasks assigned by their on-site supervisor such as reading scientific papers or writing reports. Students will start to understand how medical insurances work and will be stimulated to reflect on ethical and bioethical cases. Guided by the experience of observing clinical practice, students will increase their awareness of patient-doctor relationships and the inner workings of hospitals, as well as gain insights into their future interests for specialization.
